

CONTRACT CLEANING

Grow your business with dry ice blasting

Dry ice blasting is an ideal solution for contract cleaners.

The process is an environmentally responsible and non-abrasive alternative to traditional cleaning methods. It is a faster and more effective process that does not produce secondary waste, which minimizes containment setup and eliminates the timely and costly task of waste collection and disposal.

By utilizing dry ice blasting, contractors perform projects with less people and in less time, improving the bottom line. Dry ice blasting is used for a wide range of projects and for general maintenance and facility cleaning in a multitude of industries around the world.

Industry Leaders Benefiting from Cold Jet

KEY BENEFITS

- REDUCE CLEANING TIME (UP TO 80%)
-
- NO SECONDARY WASTE
-
- REDUCE CONTAINMENT SETUP AND TIMELY CLEANUP
-
- NON-CONDUCTIVE
-
- NON-ABRASIVE
-
- INCREASE OPERATOR SAFETY
-
- ENVIRONMENTALLY FRIENDLY
-
- WIDE RANGE OF APPLICATIONS

FEATURED APPLICATIONS

DISASTER REMEDIATION (MOLD, SMOKE, FIRE, WATER)

FACILITY MAINTENANCE

HISTORICAL RESTORATION

PRINTING

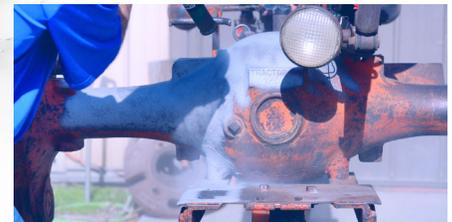

PRODUCTION LINE

FOOD & BEVERAGE FACILITIES

TRANSPORTATION

UTILITIES/ POWER GENERATION

WELD LINE
